

HOW RED CROSS DRIVE IS FARING

That Lake county people will respond more liberally as they see the Red Cross failing to secure needed support is the opinion of many workers over the county today as still more returns are coming in showing that it isn't all over yet and that more memberships can be secured.

At the Gary building, 8th avenue and Broadway, Gary, every office has a membership, making the first business building to be entitled to hang out the "100 per cent" sign. The Gary Y. M. C. A. has gone over 100 per cent and this shows the loyalty of service men to the Red Cross as many have rooms at the "Y."

Indiana Harbor, heretofore unorganized for the drive, now has stations where membership can be obtained at the following places: Secretary of Civic Club, Katherine House, 28th and Theodora, Public Library, Mr. Antrobus, Inland Steel Co. Restaurant.

Residents of Indiana Harbor are urged to secure their memberships at these places at once.

Miss Rhoda Welding, executive secretary of the Lake County Council of the Red Cross, spoke at Hobart before a large club meeting Monday evening and on next Monday Hobart will open an aggressive campaign for membership. Hobart has had some difficulty in organizing for the drive but is now well under way. Miss Welding has been working hard over the county.

Just how the Red Cross Fourth Annual Roll Call needs the support of every man, woman and child in Lake county is demonstrated by the returns thus far reported. The total for the county is only \$6,150—less than the total last year for Gary alone.

Gary's total to date is \$2,400 with a number of churches, foreign societies and "Map-Up" societies still yet to hear from. At the best Gary will make a showing several thousand members short of last year's 8,000 unless every person gets busy.

Crown Point has done best in proportion to size, thus far, turning in 400 memberships to date with still more coming in. Mrs. C. D. Root, director of the Roll Call there, has proven her ability as an organizer.

The surprising feature of the Roll Call in view of average returns has been the 2,000 memberships secured in East Chicago. Work there is continuing and may set the record figure for the county.

In Hammond, where the work got a late start owing to the necessity of Mayor Brown quitting the director's post due to illness in the family, only 130 memberships were reported up until yesterday. This total will be swelled into the thousands, it is hoped by Director Margaret Pile who is working hard to overcome the handicap of the late start.

Whiting has reported 1,000 memberships to date while many more reports are yet to be received. There, it is anticipated, will double that figure and

of the prisoner through the federal courts. In case the finding of a city court is not satisfactory, the government can carry the prosecution into its own court," said the judge.

The statement by Judge Dunn was prompted by the rumor that has been in circulation for several weeks to the effect that his indictment would be asked of the current federal grand jury at Indianapolis. The rumor has been traced to a confessed bootlegger who is said to be in the employ of the federal government at present, according to friends of the city judge. The bootlegger was tried by Judge Dunn who incurred his enmity, it is stated.

ELEVEN HURT IN MINE ACCIDENT

STANTON, Ill., Nov. 24.—Eleven men were seriously injured at Mine No. 2 or the Superior Coal Co. here today, when the cage cable broke and dropped the cage 25 feet down the shaft. They were taken to a hospital at Litchfield, and it is feared that several will die.

DISCUSS COLLEGE FINANCES AT DENVER

INDIANAPOLIS, Ind., Nov. 24.—The

financial situation of the three state educational institutions, Purdue and Indiana universities and the State Normal school, will be presented to 400 or more prominent Indiana citizens who will attend a dinner to be given next Monday night at the Claypool hotel here. Invitations for the dinner are being mailed to leading business men and farmers of the state, members of the legislature and others vitally interested in the welfare of the three schools.

The three institutions are known to be in bad financial straits as a result of the greatly increased cost of maintenance. There has been practically no increase in their incomes, it is pointed out. The program to be put before the legislature will be discussed at the dinner.

Only the extended efforts of every person will raise the total which is one-tenth of the amount necessary to carry on all Red Cross civilian and soldier relief throughout the county. In spite of the discouraging figures today, every loyal citizen is urged to renew efforts at once and get just one more membership before the end of the week.

bring Whiting into leadership in the county with the largest amount in proportion among the larger cities of Lake county.

Lowell and Griffith are expected to report before the end of the week. Dr. and Mrs. Eddings of Lowell have done some splendid work and Dr. and Mrs. Malone have been working hard in Griffith where Griffith, Dyer, Rosa and Highland committees will report on Friday.

OUTLOOK IN REFINERY SPLENDID

(United States S. Lead Refinery, Inc.)

The United States Lead Refinery incorporated was established at a Graceland, East Chicago, in 1905.

In the fall of 1919 the United States States Metal Refinery Company, the controlling stock being owned by the United States Metal Refinery Company, of Boston, and was the largest non-ferrous metal refineries in the world.

In the fall of 1920, the United States Metal Refining Company acquired the minority stock of the U. S. Metals Refining Company, Inc., including the East Chicago plant, now under the present name.

The late William Thum of Hammond, was sent to the East Chicago plant to develop and perfect the refining process and through his untiring efforts which resulted in success, due credit is given.

Lead bullion, containing as impurities, gold, silver, bismuth, arsenic and colorium is received from the Company's Western smelteries and is purified by electrolysis.

The result in pig lead on account of impurities is especially desirable for the manufacture of high grade white lead.

The East Chicago plant has a chemical division wherein is manufactured hydrochloric acid, lead plating solution that renders a high quality concrete hardness under the process used by the U. S. M. Co.

The chemicals are marked from the East Chicago plant and the metals are sold from the main headquarters of the company at 120 Broadway, New York.

The plant employs in its neighborhood of 250 men, many of whom are

highly skilled in the work of refining metals by electrolysis.

Since the plant was erected in 1905, it has operated smoothly. A high-class restaurant and store is maintained where the company's employees can obtain meals and supplies at cost.

W. B. Kilbourn, the acting Superintendent and L. R. Pratt, purchasing agent have direct charge of the acid sales.

The future outlook is for a continued normal output, with a further expansion of buildings and materials in the very near future.

East Chicago's new traffic and parking ordinance goes into effect today and it behooves the motorist to look out.

Autoists must not turn around in the middle of a block.

WHAT JUDGE DUNN SAYS

City Judge Dunn today made a statement in contradiction to rumors that he is to be indicted together with another official for alleged sale of confiscated liquor.

"All intoxicating liquors confiscated by the police and presented in evidence in the city court are turned over to the federal government," stated the judge.

"Whatever the source of the rumor that this liquor is sold it is uninformed as to the procedure of the court."

"Furthermore the defense of violators of the state liquor laws is not confined to one or two lawyers. With one or two exceptions every attorney in the city has appeared in defense of these prisoners in the city court. The court has not control over the fees they charge but the prospective client is at liberty to go to another attorney if one lawyer asks an unreasonable fee."

"In the seven years that I have served as city judge the city court has taken fines and fees in excess of \$160,000. The number of cases tried is more than 35,000."

Judge Dunn declared that the declaration of the city court in a liquor case does not prohibit the federal operatives taken the evidence and causing the arrest
